PROFESSIONAL SUMMARY

Computer Science graduate with a **B.Sc. in Computer Science (Second Class Upper)** and practical experience in frontend and backend web development. Skilled in building responsive, user friendly web applications using HTML, CSS, JavaScript, PHP, MySQL, React, and other modern development tools. Experienced in database management, API integration, troubleshooting, and developing practical solutions for real world problems. Passionate about software development, continuous learning, and creating reliable digital products.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science - Second Class Upper

Fountain University, Osogbo, Osun State.

Graduated: July 2026

Relevant Coursework: Data Structures & Algorithms, Web Development, Databases, Operating Systems, Software Engineering, Artificial Intelligence, Machine Learning, Hardware Maintenance, Computer Networks, Discrete Mathematics.

Hikmah Secondary School,

Auchi, Edo State.

Graduated: July 2015

Hikmah Nursery and Primary School,

Auchi, Edo State.

Graduated: 2009

TECHNICAL SKILLS

Programming Languages:

Python, JavaScript, PHP, C++, Java, Kotlin.

Web Technologies:

HTML5, CSS3, JavaScript, React, Bootstrap, Tailwind CSS, Node.js, PHP.

Databases:

MySQL, MongoDB.

Tools & Platforms:

Git, GitHub, VS Code, IntelliJ IDEA.

Other Technical Skills:

RESTful APIs, Responsive Web Design, Database Management, Hardware Troubleshooting, System Maintenance, Debugging, Testing, Problem Solving.

PROFESSIONAL EXPERIENCE

Web Development Trainee - SIWES

i-SEFI Computer Technician, Osogbo, Osun State.

Duration: 24 Weeks

- Designed and developed responsive web pages using HTML, CSS, JavaScript, and Tailwind CSS.
- Built a shipping and logistics tracking website with an administrative dashboard for managing shipment records.
- Implemented HTML forms and JavaScript-based validation for user input.
- Developed backend functionality using PHP to process form data and interact with MySQL databases.
- Designed and managed database tables for storing shipment and tracking information.
- Applied practical web development, debugging, and problem solving techniques to real world projects.

Freelance Web Developer

Freelance

- Developed and customized web based solutions based on client requirements.
- Applied frontend and backend development skills to create functional and responsive web interfaces.
- Managed project development and updates using modern web development tools.
- Designed a business selling website to showcase clothing brands.

PROJECTS

Forex & Cryptocurrency Simulation Platform

Technologies: PHP, MySQL, JavaScript, HTML, CSS

- Developed a web based platform for simulating cryptocurrency and Forex trading in a risk free environment.
- Implemented user account and dashboard functionality for managing simulated trading activities.
- Designed interfaces for viewing market information and executing simulated trades.
- Integrated database functionality for managing users, trades, and related records.
- Focused on creating a practical learning environment for users interested in financial trading.

Shipping Tracking Website

Technologies: PHP, MySQL, JavaScript, HTML, CSS, Tailwind CSS

- Developed a logistics tracking platform where administrators can upload and manage shipment details through an administrative dashboard.
- Implemented PHP backend functionality for processing and storing tracking information in MySQL.
- Enabled customers to track shipments using unique tracking numbers.
- Created a responsive user interface using Tailwind CSS and JavaScript.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Developed a personal portfolio website to showcase technical skills, projects, experience, and achievements.
- Implemented responsive layouts and interactive user interface components.
- Integrated a contact form with email functionality.
- Deployed and maintained the website using Netlify and GitHub.

Machine Learning, Image Classification

Technologies: Python, TensorFlow, Keras

- Built an image classification model using Python, TensorFlow, and Keras.
- Trained and evaluated the model using different hyperparameters and validation techniques.
- Applied machine learning concepts to image classification and model evaluation.

CORE COMPETENCIES

- Full-Stack Web Development
- Frontend Development
- Responsive Web Design
- Backend Development
- Database Management
- React Development
- API Integration
- Problem Solving
- Debugging & Testing
- Version Control with Git & GitHub
- Hardware Troubleshooting
- System Maintenance
- Software Development

LANGUAGES

- **English:** Fluent
- **Hausa:** Fluent
- **Etsako:** Fluent

INTERESTS

- Web Development
- CyberSecurity
- Software Development
- Open Source Projects
- Web Technology & Innovation
- Hardware Repair & System Troubleshooting
- Football & Sports
- Continuous Learning
